Oconto County Healthy Waters Cost Share Program

Oconto County Healthy Waters Cost Share Program

*A County Program
established to financially assist with
water quality projects on public
waterways.*

*Guiding Vision...
"Having the Healthiest
Waters in Wisconsin"*

Purpose:

This Funding Program is to provide financial assistance to communities to enhance, protect and restore water quality, fish and wildlife habitat.

Cost Share:

Successful applicants will be eligible for funds up to 10% of the total project cost if applicant is receiving other state or federal grants, or up to 50% if the applicant is not receiving state or federal grants. A maximum cost share cap will be 10%/50% or \$7,000, limited to whichever cap is reached first. The annual funding pool will be set at \$35,000 unless otherwise approved by the Land & Water Conservation Committee.

Timelines:

Applications will be accepted from January 2nd to September 1st of each year. The Land & Water Conservation Committee will make final awards by November 1st of that year.

All awarded grants will be eligible for 2 years unless an extension is granted. In the case of a **Rapid Response grant (NR 198)**, the applicant will be allowed to apply after the fact; if the application is selected for funding, the applicant may be paid for eligible costs which were incurred prior to the application being selected.

Eligibility:

Cities, towns, villages, Public Inland Lake Protection & Rehabilitation Districts, sanitary districts, lake associations, river associations, conservation organizations, and fish and sportsman clubs.

In areas where no organized water protection entity exists, a local unit of government may act as applicant for a qualifying project. Other entities, not listed in this brochure, may apply with the approval of the Land & Water Conservation Committee.

- All projects must be on property or water that has public access and provides a benefit to the general public.
- Projects that recur on a periodic bases will only be eligible to apply for funds for one occurrence.
- Control project applications require consultation with the Wisconsin Department of Natural Resources.

Requirements:

- Grant recipients will be responsible to submit copies of all eligible project receipts.
- Grant recipients will be responsible to submit paid receipts for their portion of the eligible project costs before grant proceeds will be awarded.

Eligible Projects:

Aquatic Invasive Species – NR 198 Wis. Admin Code

Education, Prevention and Planning Projects
Early Detection and Response Projects
Established Population Projects
Maintenance and Containment Projects
Research and Demonstration Projects

Lake Management Planning – NR 190 Wis. Admin. Code

Lake Protection – NR 191 Wis. Admin. Code
Wetland and Shoreline Habitat Restoration
Lake Plan implementation

River Protection – NR 195 Wis. Admin. Code
River Planning
River Management

If an application for a project not listed above is received, eligibility for that project shall be determined by the Land & Water Conservation Committee.
